

An Introduction to Anti-Ageing Medicine

by: Prof. Thierry Hertoghe

You've made your patients look good, so now make them feel good too!

In this special 10 hour presentation, Assoc. Prof. Thierry Hertoghe of Belgium covers the basics of Anti-Ageing Medicine, with a focus on correct nutrition and hormone balancing. Consider it an internal makeover!

This is one of the most comprehensive Anti-Ageing training tools available and should be seen by all doctors who want their patients to look and feel their best.

The DVD covers:

- ABC of Anti-Ageing Medicine
- Treatment of partial testosterone deficiency in ageing males and females
- Treatment of pre- and post-menopausal hormone deficiency in women
- Treatment of mild thyroid hormone deficiency
- Treatment of mild adrenal failure (Cortisol, DHEA, Aldosterone etc)

Dr Hertoghe speaks from his volumes of experience, years of clinical practice and presents the medical evidence behind the use of these therapies. In this DVD he also presents a number of live consultations, resulting in nutritional and supplemental advice.

This DVD is an important reference tool, and should be considered by all Anti-Ageing doctors and Cosmetic Surgeons in Australia.

The DVD is valued at \$189.00 (ex GST), **but is available at the special introductory rate of \$129.00** (ex GST) for the first quarter of 2008.

To purchase your copy of this DVD available exclusively from NxGen Australia, simply call us on 1300 853 621.
