

QUICK JUST BECAME ***FASTER!***

Now is the time to take your compounding prescribing to the next level by offering your patients ACPHARM's new Rapid Dissolve Tablet.

> WHAT ARE RDTs?

Rapid Dissolve Tablets are designed to dissolve quickly on the tongue without any water making it an ideal alternative dosage form for patients who have difficulty swallowing. In short, they offer quick delivery of medication, rapid dissolution, and greater absorption in the blood.

> Dosages up to 200mg have been shown to incorporate well with our MEDI-RDT Base*

* Due to less time spent in the mouth it is recommended to use below 150mg

> Why choose us?

1

MEDI-RDT BASE

The Medi-RDT Base is a **Sugar-Free**, finely granulated powder that is compatible with a wide range of active ingredients. Our unique RDT formula provides **significantly faster** wetting and disintegration times compared to similar products on the market:

- Wetting time: 5 sec. (versus 24 sec.)
- Disintegrating time: 93 sec. (versus 287 sec.)

> MEDISCA's Medi-RDT Sugar-Free Base has been put to the test against competitors and has proven to have superior performance.

2

MEDI-RDT MOLD

Made out of an extremely durable, heat-resistant hospital grade polymer, the mold is designed for repeated and prolonged baking, up to 120°C (248F). Committed to providing the highest quality products and supplies, MEDISCA's Teflon-free molds were developed to avoid the risk of any particles potentially getting into the tablets and causing contamination. The lateral containment system helps to avoid powder loss and facilitates the filling process, while the calibrated cavities allow you to compound tablets that comply with the average weight test.

Additional benefits include:

- Lightweight for easy handling and cleaning
- Dishwasher safe
- Design allows for a significant decrease in baking time

3

MEDI-RDT BLISTER PACKS WITH SLEEVES FOR 90 DOSES

The customised air-tight blister packs include UV-resistant amber-coloured sheets for optimal protection of light-sensitive drugs. Cold seal tamper evident foil laser labels for medication identification and sleeves are used to ensure your patients get the best quality product.
